- Metricool (Social Media Analytics and Management tool)

PROFILE

My name is Justin Heath, and I'm a software developer currently studying at Purdue Global University, pursuing a bachelor's degree in information technology. I graduated high school with an Associate degree in Software Development, participated in the National Honor Society, and maintained a 3.6 GPA. Currently, my GPA is even higher at Purdue Global, and I am on track to graduate college at 19 years old this winter through Purdue's Excel program. As you can tell, I'm wasting no time. You'll find that I am friendly, humble, kind, and always willing to help others and deliver the best work possible. Make sure to check out my website, LinkedIn, and GitHub for more about me.

EDUCATION HISTORY

Bachelors Degree | Science in Information Technology

August 2023 – (Expected in) December 2024

- Enrolled in the National Society of Leadership and Success

Associates Degree | Software Development

August 2021 – August 2023
